

Pacentro 2010
A Culinary Journey

Hospitality and Tourism is one of the top fields for employment in Canada. The Hospitality and Tourism course provides both hands- on and theoretical training related to culinary arts, tourism, and hospitality management. A highly trained teacher and experienced chef will engage students in practical classroom activities teaching them to make dishes only with the freshest ingredients from local farmers and artisan purveyors. Local women will share and demonstrate their authentic family recipes and amazing desserts. Students will also participate in exploring the countryside for a taste of domestic fruit and vegetables and will walk through private vineyards, olive orchards and award winning artisan cheese purveyors.” Group tours of historical and ancient Italian cities open up world tourism experiences.

Join us for a Hospitality and Tourism Journey in Pacentro 2010!

Courses available for 2010, TFJ2O, TFJ3C, TFJ4C
